

French Lesson Supplements Order Form

You may order from Home and School Solutions through our website or e-Bay (using PayPal, which offers debit and credit card payments as well as a Send Money function) or by regular or e-mail. We accept money orders and cheques in Canadian funds made out to "Connie Lacelle," but will not ship packages until they clear the bank. Shipping varies according to destination, weight and dimensions of the package. There is a chart on the website of shipping costs for various quantities of individual products, but if you wish to combine items and save money on shipping please give us an opportunity to calculate accurate shipping/handling amounts for you. If you wish to purchase several items through the website or e-Bay using PayPal, I can send you an invoice with adjusted shipping based on the package assembled.

To give you an accurate total, in addition to a list of the items you wish to purchase (*see over for the French Lesson Supplements and the [main order form](#) for others*) we will need to know:

NAME _____ PHONE (____) _____ - _____ E-MAIL _____

ADDRESS _____

CITY _____ PROV/STATE _____ POSTAL CODE _____

Prices are given in Canadian dollars. No taxes apply. Since shipping/handling is calculated on the basis of the package assembled, please e-mail (preferred) or phone/fax me the list of items required along with your postal code and expected mode of payment. If you are using PayPal I can e-mail you an invoice. If you are paying with a money order or cheque, please complete and send this order form to the address below after I give you the combined total.

Contact information:

Connie Lacelle

French Lesson Supplements

These three French Lesson Supplements will be very helpful to those who use the Rosetta Stone French language program. The grammar check off list provides a place to check off up to 6 passes through the grammar lessons in the study guide for Level I. The Rosetta Stone Student Management System is an excellent comprehensive software program for managing student records for an entire school with numerous classes, teachers and students—but it is very complex. Our complete scheme for programming all the lessons for both Levels will make it easier for you to set up your lesson schedule! The flash cards make it easy to drill and review 118 important facts and phrases, such as letter pronunciations and weekday names. (You can use the flash cards even if you do not use the Rosetta Stone program.)

Note: If you purchase items from the [main order form](#) as well as this French Lesson Supplements order form, please remember to send both of them to us! Space is provided below for you to calculate your complete order total.
